CSL Lab02 - DJ Panel

Video link: https://www.youtube.com/watch?v=8hw7RgapjPU&ab_channel=Henry

1. Bonus

- all (timestamps listed in the video description)

2. Feedback

- We hope labs affect our final grade in a clearer way
- The second bonus (use potentiometer to control pause/play) is a bit strange. It feels weird no matter how we implement it. Usually we don't have that functionality on the volume button, unless it can be pressed?
- Soldering is awesome.
